

Who We Are

Omega Finance

Omega Finance was established with the mission of making financial knowledge accessible to users in a more practical manner. More about us at

<http://goo.gl/6R1RPg>

The leader of the majority of its seminars and workshops is the company's founder and director, Jernej Doles, who has been involved in training in various areas of finance and banking for almost two decades. Check out his résumé at

CAPITAL MARKETS & DERIVATIVES TRAINING

Omega Finance

Keep your professional development continuous and stay ahead of your peers

We provide our clients with the practical skills and knowledge they need to succeed.

Seminars are a good combination of financial theory and practice. They are up-to-date with respect to changing market conditions and the regulatory framework.

With sound and, above all, practical knowledge of financial instruments and financial markets, we will try to help you solve practical, everyday financial problems.

Upcoming Workshops

Financial Markets and Market Risk Management

Date: 10-11 November 2016

The objective of the workshop is to present the current functions of the major financial markets and instruments in a structured and comprehensive way. After the seminar, participants will understand different types of market risk and limits and procedures which are necessary to effectively manage these risks. More about the workshop at <http://goo.gl/G62iXX>

Issuing Bonds and Repo Market

Date: 8-9 December 2016

This training course will provide participants essential information needed for issuing bonds and financing bond positions. Its practical approach will provide participants with an insight into how financial institutions lend and borrow securities and utilise repos.

More about the workshop at <http://goo.gl/FEhgRZ>

CRD IV – The implementation of Basel III in EU

Date: 2-3 February 2017

The objective of the workshop is to familiarize the participants with the new European regulation for banks and financial institutions. Particular attention will be given to capital, liquidity requirements, leverage, and capital buffers. The workshop combines formal theoretical instruction with reference to practical examples.

Bonds and Hedging Strategies for Bond Portfolios

Date: 27-28 April 2017

The objective of the workshop is to provide participants with a comprehensive overview of different fixed-income securities, the characteristics of bonds, and bond valuations. We will explain methods for measuring interest-rate risk and the role of futures and swaps in hedging. Practical tips for hedging bond portfolios against interest-rate risk will be given. More about the workshop at <http://goo.gl/p6cCKK>

FX and Interest Rate Derivatives

Date: 1-2 June 2017

This warm-up workshop on derivatives will provide participants with a general introduction to forwards, swaps, futures, and options, and explain the advantages and disadvantages of individual instruments. We will explain the main characteristics, most important terms, and basic mechanics of instruments. Finally, we will give participants an overview and examples of the basic uses of derivatives for trading and hedging purposes.

In-house Training

Save time and money with in-house training.

You can take any course on any date, in any location.

All our public courses are available in-house, or alternatively, we can create a specific course that addresses your exact requirements. Our in-house training programmes deliver both convenience and cost savings. Courses are charged per day and not per delegate, so there is a potential for significant savings.

In-house workshops can cover financial areas such as

- trading and hedging with derivatives
- investing in bonds and equities
- financial markets and instruments
- managing and hedging portfolios
- market risk and liquidity management
- bank regulation.

[Contact us](#), and we will offer the most suitable program for you.
